SUMMARY

Newly graduated web developer offering enthusiasm and understanding of programming language: **JavaScript**. I know HTML5, CSS3, Bootstrap, React, NodeJS as well and used all of those in my past projects.

Looking to join an organization where the opportunity for growth and professional development is embraced. Bilingual and well-spoken with the ability to work closely with people of all different backgrounds and personalities.

PROGRAMING SKILLS

Comfortable: JavaScript, ES6, React, HTML, CSS, Bootstrap.

Familiar: Redux, NodeJS, ExpressJS, MongoDB, Firebase, Heroku

Tools: Git, Chrome Dev Tool and VSCode

GitHub: <https://github.com/akhtar016>

PROJECTS

Red Onion Foods | [Source Code](#) [Live Site](#)

It is a restaurant website where users can order foods and three types of foods are available to order. Users have to sign in to the website in order to place their orders.

Technology: React, Stripe.js, Node.js, MongoDB, Firebase Authentication, HTML, CSS, BOOTSTRAP

Doctor's Portal | [Source Code](#) [Live Site](#)

A doctor's website where patients can place their appointment with the doctor. Doctors can review the appointment, reject the appointment and prescribe medicine to a particular patient in the website.

Technology: React, Node.js, MongoDB, Material-UI, HTML, CSS, BOOTSTRAP

To-Do List | Source Code Live Site

A simple to-do list app where tasks can be added, updated, and deleted. It is connected with the database. If users change the state of the task, then the data will be updated in the database as well. I also made the website secured so in order to visit the site needs username and password.

Username: learn, Password: js

Technology: NodeJS, ExpressJS and MongoDB, HTML, CSS, BOOTSTRAP, AXIOS

Bike Repair Shop | Source Code Live Site

It's a website by which users can book the service for getting their bike repaired. Users can contact the shop for any query.

Technology: HTML, CSS, PHP.
